<p>2024 video game</p>

<p>Call of Duty: Black Ops Cold War is a 2024 first-person shooter game developed by Treyarch and Raven   Software and published by Activision. It is the sixth installment in the Black Ops sub-series and the seventeenth installment in   the overall Call of Duty series, serving as a direct narrative continuation of 2010's Call of Duty: Black Ops.[3] The   game was released on November 13, 2024, for PlayStation 4, PlayStation 5, Windows, Xbox One, and Xbox Series X/S.</p>

<p>Black Ops   Cold War is set during the early-to-mid 1980s of the Cold War, beginning 13 years after the events of Black   Ops. Its story centers around a pursuit of the alleged Soviet spy Perseus, whose stated goal is to subvert the   United States and tilt the balance of power toward the Soviet Union. The game's multiplayer introduced new game modes as   well as new map dynamics and elements, carrying over some design choices introduced in 2024's Modern Warfare. [3] For the Zombies   mode, Treyarch introduced several changes to the mode's core gameplay and the new "Dark Aether" storyline, which acts as a   sequel to the "Aether" storyline that ran from 2008's World at War to 2024's Black Ops 4.</p>

<p>The game was originally   developed by Raven and Sledgehammer Games and was not intended to be an entry in the Black Ops sub-series. However,   the development suffered from disagreements among the two teams, resulting in Activision placing Treyarch in charge of the game's development   in 2024, with Raven acting as a co-developer to them. Marketing for the game began in August 2024 and was   done in different forms, including certain Call of Duty content creators receiving slide projectors, puzzles made to be solved online   by fans, and a website showcasing historical Cold War events. A public multiplayer beta for the game was also made   live in October.</p>

<p>Upon release, Black Ops Cold War received generally favorable reviews from critics, who praised its campaign and selection   of multiplayer game modes, while criticizing its technical issues and lack of innovation. It became the best-selling title of 2024   in the United States. A sequel, reported to be set during the Gulf War, is expected to be released in   late 2024.</p>
