GP!</p&qt;
<p&gt;&lt;/p&gt;&lt;p&gt;To fully exploit the constrained width, avoid loadin
g the neighbouring structures and straddle shared utilities running under the si
te, the /, house was constructed using a lightweight steel frame on a piled sla
b. The steelwork was prefabricated as a series of /, portal frames that were cr
aned down the alley and site-welded together. Given that every inch in such a na
rrow space /, was valuable we chose to fully weld the connections and express t
he frame internally, even utilising the depth of the /, steels to maximise the
space.</p&gt;
<p&gt;Alongside the painted steel a simple palette of spruce plywood, douglas
fir joists, terrazzo and cork /, flooring enriches the interior. Externally th
e timber framed walls are clad in handmade pewter glazed brick slips with a pati
na /, that reflects the changing light of the sky. Both the simply landscaped a
nd planted rear courtyard and the garden in /, front of the house enhance the f
eeling of space in this small dwelling.</p&gt; &lt;p&gt;This self-build project had a long gestation, fitted \checkmark, in around prof
essional and family life. The design and construction were developed as time and
money allowed so whilst planning /, consent was given in January 2014 and the
ground works commenced in the spring of 2024, the building was not /, completed
until August 2024. We worked closely with friend and joiner Michael Tye to lead
a small team of local /, subcontractors and employed specialist fabricators fo
r certain key packages as well as undertaking a fair amount of the work ourselve
s.</p&gt;
<p&qt;The /, result is a unique and highly crafted home that is a testament
to the commitment, effort and support of many /, people. By replacing a narrow
disused alley with this comfortable small home we hope to have enhanced the stre
etscape we /, inhabit. As the building completes the terrace, so does the front
garden - with the simple bin store, planting, level /, access and bike parking
we aimed to keep it open and reinforce the pavement line without making a hard
boundary. /, The development highlights the viability, both economically and sp
