Betting odds are the ratio bet

ween the amount staked by the bookies and the bettor, so 7/1

2; means the bookies stake seven times the amount the bettor has wagered. If the

bettor wins; their predicted outcome materialises; they will take seve

n times their bet from the bookie (in this case).

Mathematicians measure probability by

counting and using some very basic math, like addition and d

ivision. For example, you can add up the number of spades in a comp

lete deck (13) and divide this by the total number of cards in the deck

(52) to get the probability of randomly drawing a spade: 13 in 52, or
