The formula calculates the sum of a range of Fibonacci numbers.  $F(n) = F(n-1) + F(n-2)$ , with  $F(0) = 0$  and  $F(1) = 1$ .

Rules for Fibonacci Numbers Fibonacci sequence numbers follow a rule according to which,

$F_n = F_{n-1} + F_{n-2}$ ,

where  $n \geq 1$ . The third Fibonacci number is given as

$F_2 = F_1 + F_0$ . As we know,  $F_0 = 0$  and  $F_1 = 1$ , the value of

$F_2 = 0 + 1 = 1$ .
