2 player games are a popular category of unblocked games at Friv. As compared to single-player games, where you compete against a PC opponent, these games can be played by two or more players and they steadily soar around the globe. These games are available on a wide range of devices including desktop computers, smartphones, and tablets. They are often free to play and can be accessed from any internet-connected device.

Other than that, you can also play some logic games and puzzle games, if you like the cooperative mode. Some of the more complex 2 player games can also be played by a higher number of players. Our collection of 2 player games is still growing, as we add some new games every week. If you are a fan of free 2 Player games or 3-4 player franchises or one Live custom game, you will find a wide variety of options on our website. We also offer a selection of premium games for a small fee.

The official COD Companion App has been removed from the app stores. Terrible news, because we were dependent on the app's API to derive player and loadout usage statistics.
