<p></p><p>Bookies set odds for sporting events or other compet

itions that attract betting action. The odds are designed to encourage betting &

#128200; on both sides of an event, ensuring that the bookie will make a profit

regardless of the outcome. They do 📈 this by adjusting the payout odds

to favor the less likely outcome, thus ensuring a profit even if the majority &

#128200; of bets are placed on the more likely outcome.</p>

<p>Bookies also collect a commission, known as the "vig" or "o

t;juice," on 📈 losing bets. This commission is typically around 10

% of the total amount wagered. By collecting this fee on all losing 📈 b

ets, bookies are able to generate revenue even if they pay out a significant amo

unt of money to winning bettors.</p>

<p>Finally, 📈 bookies may limit the amount of money paid out to w

inning bettors. This is done to manage risk and ensure 📈 that the booki

e remains profitable. By limiting the payout to winning bettors, bookies are abl

e to protect themselves from large 📈 losses in the event of a significa

nt upset or unexpected outcome.</p>

<p>In summary, bookies make money through a combination of setting ㈔

O; odds, collecting commissions, and limiting payouts to winning bettors. These

strategies allow them to generate revenue and remain profitable over 📈

the long term.</p>
